

The Punxsutawney Revitalization Group (PRG) is proud to enter its 17th year of providing matching grants to property owners for façade improvements throughout Punxsutawney's commercial districts.

Over the past 16 years, PRG has awarded approximately \$60,000 in grant funding, helping to generate more than \$250,000 in property improvements. This impressive return on investment demonstrates the power of community partnerships and the lasting impact that even a modest contribution can have on the appearance and vitality of our downtown.

PRG is now seeking contributions to support the 17th annual Façade Improvement Program. Your investment will encourage property owners to make meaningful improvements to their buildings, helping create a more attractive, welcoming, and vibrant commercial district.

These improvements do more than enhance individual properties. They strengthen the overall image of Punxsutawney, support local businesses, encourage additional investment, and help position our community as a modern and progressive place to live, work, shop, and visit.

We are especially encouraged by the new businesses that have recently opened in Punxsutawney's downtown district. We look forward to supporting their success, along with our established businesses, by offering façade improvement grants that help offset the cost of exterior renovations.

Your support makes it possible for PRG to continue assisting both new and existing businesses while preserving and enhancing the character of our community.

Thank you for investing in the continued growth and revitalization of Punxsutawney.

Sincerely,

Katie Donald
